sugar	5g.	7g.		
cow's bones	100g.			
average calories	3000	3000	2200	

DEF. DOC. #1996 Evidence #13

Note: This table is contained the materials gathered at the meeting of Chiefs of War Prisoners Camps, held on the 27th of September, 1946, (belonging to OSAKA W.P. camp).

Remarks:

- (1) The comparisons is based on the labouring rations in all three cases of prisoners, army & people.
- (2) The differences would be much greater in the comparison of non-labouring rations. The amount of main food ration for people is 330g, with the average 1400 calories.
- (3) Wheat flour, soyabeans, etc. are included in main foodstuff.
- (4) Prisoner labourers were supplied with an additional 700 calorie food during their labour hours.
